SPECIAL WINTER PROMOTION &
OUR AFFORDABLE PRICES!**

1 877-337-8414

While few outdoor fireplaces compare with the aesthetics of a custom built stone fireplace, our line of Nexo fireplaces provide an affordable alternative without sacrificing quality. The Fireplaces are faced with natural sandstone from Scandanavia which is cut and placed by skilled artisans. They offer both the beauty and durabilty of natural stone.

We offer a custom-built look! The fireplaces are modular and can be easily assembled by just stacking the sections. Once assembled, the fireplace looks like it was built in place.

These outdoor fireplaces are made to handle the elements and are fully functional for cooking or heating. Every firebox interior is made from Volcanic Pumis Stone, which can withstand intense heat from a woodfire. Beautiful, affordable, and very simple to set up. All fireplaces are in stock. Call to order yours today!!!
